

# B-block for BHH/BHHF actuators

## Presentation:

For bulk head mounting of CB blocks. Can be used where actuator area control equipment must be placed away from the actuator. (Difficult access, submersion, actuators without mounting face).

This block is also used for 1-line actuators when the spring cavity is hooked up for remote breathing or for spring boosting.

## Main dimensions: (Inches in parenthesis)

B-block

Note: Not Certified dimensional drawings. Such drawings are available on request. Contact factory with correct model designation and serial number. Important: Due to Emerson's continuing commitment to engineered product advancement, data presented herein is subject to change.
